

Small Wonders

Start Age 2.9

Our Program offers children:

- ◆ Spirituality
- ◆ Language Development (Communication receptive and expressive)
- ◆ Motor Skills (Gross and Fine)
- ◆ Individual Awareness

Small Wonders Early Learning Center will explore and discover while creating a family/child centered environment that naturally allows young children to grow and develop.

Early childhood development will focus on meeting the needs of individual families and by developing their age appropriate skills. The philosophy at St. Francis Xavier's Small Wonders program offers a caring, loving and compassionate environment. Our highly trained staff will implement a structured yet flexible teaching style. We offer a program that uses play as it's primary way of learning. This foundation will lead to an enriched transition to pre-school and kindergarten. Each child will be empowered to soar towards excellence, feeling safe and knowing their needs will be met.
